Ex parte Quayle

1. This application is in condition for allowance except for the following formal matters:

Drawings

2. The drawings are objected to because:

- a) Numeral 61 for a plurality of penetration grooves is not marked on figure

4. Refer to page 6, line 13.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

3. Claims 1-5 are objected to because of the following informalities:
- a) In claim 1, line 2, “the front surface” lacks antecedent base.
 - b) In claim 1, line 3, “the rear surface” lacks antecedent base.
 - c) In claim 1, lines 2 and 3, specify, the front and back surfaces of what?
 - d) In claim 1, line 11, change “grooves orthogonal” to -- grooves are orthogonal --.
 - e) In claim 2, lines 2 and 3, “a plurality of penetration grooves” is already in claim 1.
 - f) In claim 3, line 2, “a plurality of terminal insertion grooves” is already in claim 1.
 - g) In claim 3, lines 4 and 5, “a plurality of wire insertion grooves” is already in claim 1.
 - h) In claim 3, line 6, “the connection slits” lacks antecedent base.
 - i) In claim 3, line 7, specify, integrally formed with what?
 - j) In claim 5, lines 7 and 8, “a plurality of IDC terminals” are fixed on the PCB 30 and not fixed to the rear surface of the housing 10.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

REASONS FOR ALLOWANCE

4. The following is an examiner's statement of reasons for allowance:

The reason for allowance of the claims is the inclusion of the limitation,

- a) None of the prior art teaches or suggest, alone or in combination the terminal insertion grooves and the wire insertion grooves are orthogonal to each other, in combination with other limitations in the claim, which is not found in the prior art reference of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
